MEMORANDUM FOR THE RECORD

SUBJECT: Visit with Air Force Legislative Liaison Officials

1. Met originally with Colonel R. A. Green, Chief of the Legislative Division, Air Force, who gave me a thorough briefing on the activities of his branch. Subsequently we visited the other branches and saw how their systems worked. All people concerned offered to help wherever possible. Of particular interest is Miss Bessie Moore, the Chief Researcher, who has extensive facilities in terms of reference material. In addition, she could be of assistance in developing background information on various personalities.

2. I met briefly with Major General W. L. Fisher, who will assume command of the office in the near future. He was extremely pleasant and offered to help wherever possible. Apparently he is a close friend of Matt Baird. I also talked with Colonel Vincent J. Adduci, who welcomed my visit. Specifically, he felt they could assist materially in the event we wished to direct traveling congressman abroad to CIA installations. He offered to keep alert to possibilities and in any event will furnish us information as we request it.
